

**EGYPTIAN ELECTRIC COOPERATIVE ASSOCIATION
POLICY BULLETIN NO. 501**

SUBJECT: SINGLE PHASE ELECTRIC SERVICE TO A PERMANENT FULL-TIME RESIDENCE

POLICY:

The cooperative will make single-phase electrical service available to full-time residences in its service area in accordance with its by-laws and under the following terms and conditions:

A. GENERAL CONDITIONS

The member will furnish:

1. A \$50.00 non-refundable new service fee
2. A security deposit (if required) (See Policy 104)
3. All necessary easements
4. Cleared right-of-ways.

B. OVERHEAD SERVICE

1. The member will furnish:
 - a. A meter loop - constructed in accordance with the cooperative's specifications.
 - b. A nonrefundable aid-in-construction payment equal to 75% of actual construction cost for each circuit foot of primary line or secondary line in excess of 250 feet.
 - c. All other costs associated with a new service, such as but not limited to metering, and terminations, will be billed out at a nonrefundable aid-in-construction payment equal to 100% of the actual cost.
2. The cooperative will furnish at no charge:
 - a. An overhead service drop
 - b. 250 feet in total of primary line or secondary line
 - c. Electric meter

C. UNDERGROUND SERVICE

1. The member will furnish:
 - a. A meter loop - constructed in accordance with the cooperative's specifications.
 - b. A non-refundable aid-in-construction payment equal to the 75% of actual construction cost for each circuit foot of primary line or secondary line in excess of 100 feet.
 - c. All other costs associated with a new service, such as but not limited to metering, and terminations will be billed out at a nonrefundable aid-in-construction payment equal to 100% of the actual cost.
2. The cooperative will furnish 100 feet in total of primary line or secondary line, including the riser pole and the electric meter at no charge.

**EGYPTIAN ELECTRIC COOPERATIVE ASSOCIATION
POLICY BULLETIN NO. 501**

**SUBJECT: SINGLE PHASE ELECTRIC SERVICE TO A PERMANENT FULL-TIME
RESIDENCE**

D. CONVERTING EXISTING OVERHEAD LINE TO UNDERGROUND

The member shall pay the total estimated costs for labor and material for the converting of an existing overhead line to underground. Each job shall be estimated on an individual basis and charges may be reduced in those instances where converting to underground may eliminate future tree trimming costs.

E. CONSTRUCTION CHARGES

1. All charges must be paid prior to the start of construction.
2. All charges are based on anticipated normal construction conditions. The cooperative reserves the right to increase charges should conditions be encountered that would substantially increase the cost of construction. The cooperative also reserves the right to decline an application for service or alter the route of a line if natural conditions are such that the cooperative determines that construction is not feasible.
3. All charges for new construction are based on the assumption that the member will begin construction on his residence as soon as the electric service is made available. If, in the judgment of the cooperative, there is some question as to when construction may begin, the member may be required to pay an additional security deposit. The amount of such deposit shall be determined on a case-by-case basis and shall be refundable in full at such time as the residence is substantially under construction.
