

**EGYPTIAN ELECTRIC COOPERATIVE ASSOCIATION  
MURPHYSBORO, ILLINOIS**

**SCHEDULE EV-1 – ELECTRIC VEHICLE – SINGLE PHASE – SEPARATE METER  
RATE CODES: EV1**

**AVAILABILITY**

Available to any Member who requires a dedicated single phase service for the charging of electric vehicles, subject to the following conditions:

1. Member is located within the service territory of the Cooperative.
2. A written contract may be executed before service is energized.
3. The Member may be required to provide a contribution in aid-to-construction, up to and including the installation of a separate meter to serve electric vehicle (EV) charging facilities.

**SERVICE CHARACTERISTICS**

The Cooperative shall install lines together with transformer and meter installations of proper capacity to fully provide the Member with electric energy for his requirements. The Cooperative shall use reasonable diligence to maintain a constant and uninterrupted supply of energy to the Member's metering point; however, if such supply shall fail or be interrupted, or become defective through an act of God or the public enemy or by accident, labor troubles or action of the elements or for any other cause beyond reasonable contract, the Cooperative shall not be liable, therefore.

The Member shall provide suitable space and the necessary right-of-way, easements, and clearances for the installation of the Cooperative's lines, transformers, and meters to the Member's premises, and shall permit free access to the same at all reasonable hours for the purpose of inspecting and checking Cooperative's installations. The Member shall maintain, as nearly as practicable, equipment of standard rating and high-power factor, to the benefit of both parties hereunder, and shall follow the National Electric Code in installing the wiring and electrical equipment.

**RATES FOR SERVICE**

The Cooperative shall own, install, and maintain, on the Member's premises, meters of the proper size and type to accurately measure the Member's current consumption. The total power and lighting load shall be measured through one meter and billed as one service at the rates herein specified; however, at the discretion of the Cooperative, the loads may be separately metered and billed as one meter.

For the foregoing service, the Member shall pay the Cooperative at the following rates for services:

- |                              |   |
|------------------------------|---|
| 1. Demand Charges            | \$1.00 /kW per month (effective June 2022 usage, July 2022 billing) |
| 2. Electric Supply           |   |
| Energy Charge (On-Peak)      | \$0.10 /kWh (effective June 2022 usage, July 2022 billing)          |
| Energy Charge (Off-Peak)     | \$0.01 /kWh (effective June 2022 usage, July 2022 billing)          |
| 3. Distribution Charges      |   |
| Service Availability Charge  | \$20.00 per month   |
| Distribution Delivery Charge | \$0.03 /kWh (effective June 2022 usage, July 2022 billing)          |

**ENERGY SUPPLY: ON-PEAK, INTERMEDIATE PEAK, AND OFF-PEAK**

1. On-Peak period shall be defined as the following period:
  - a. months of April-October, during the hours of 4PM-10 PM
  - b. months of November-March, during the hours of 5AM-10AM
2. Off-Peak period shall be defined as all other hours not covered described above.

**POWER FACTOR ADJUSTMENT**

The Member agrees to maintain unity power factor as nearly as practical. The Member may be billed \$0.475 per kVAr consumed below 95% on average during the billing period.

**POWER COST ADJUSTMENT**

Energy charges may be increased or decreased as necessary to maintain financial integrity, meet mortgage obligations and/or maximize loan discounts.

Above rates subject to Federal, State and Local Taxes.

**MINIMUM CHARGES**

The greater of:

1. The Demand Charge
2. Service Availability Charge
3. The minimum stated in the contract for service

*Rate adopted: June 28, 2022*
